

North Dakota FAAS Team presents:

EAA VMC Meeting

We will be viewing a short video based on an actual event happening in VFR conditions. The scenarios present challenges that will be discussed based on your experience. We learn from each other. Because thinking about an unusual/emergency situation before/if it happens helps immensely when/if it actually does! The meeting time will be held to an hour.

Prior to attending a safety seminar, please review and abide by current CDC, State and local health guidelines.

Directions: Fargo Jet Center passenger terminal/FBO building first-floor conference room. (Turn left after entering from the parking lot side.) There will be signs pointing the way, or the attendant at the terminal desk can direct you.

A message from the National FAASafety Team Manager
